# ABOUT NHM

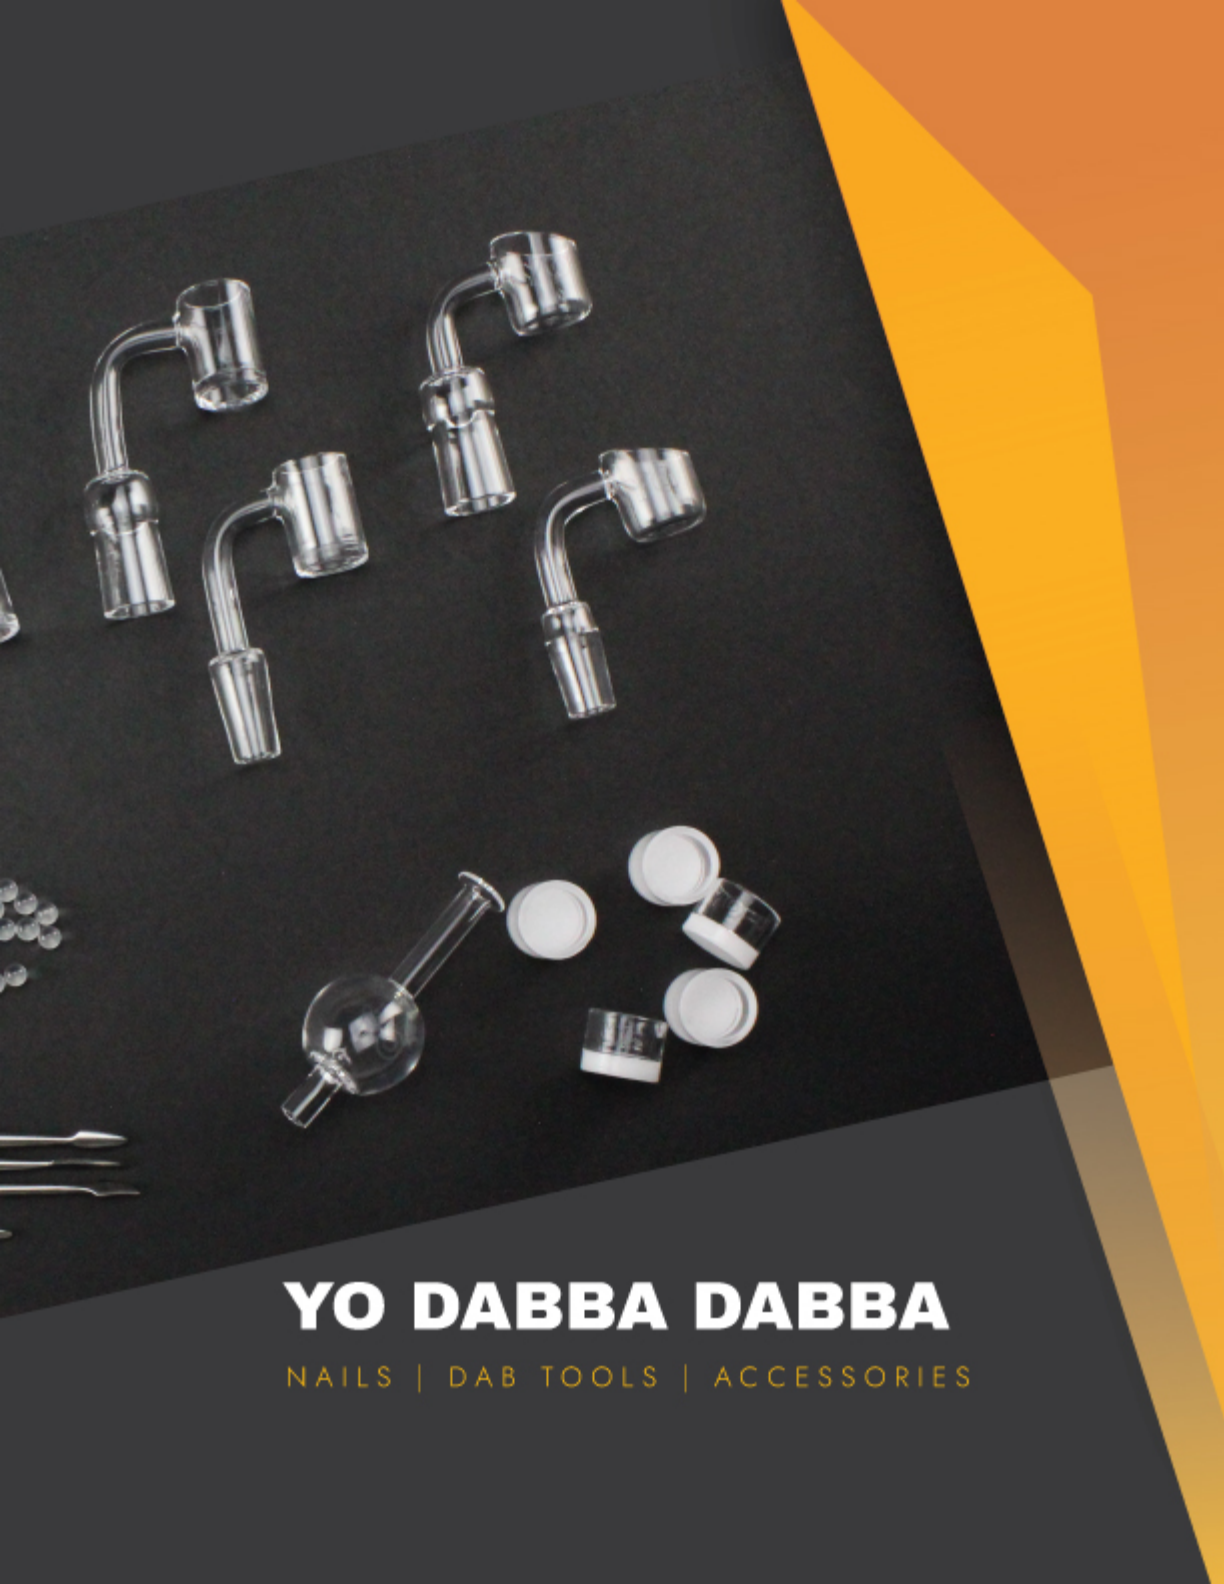

Even with over a decade in the industry, we've never had a year like this. COVID flipped everyone's world upside down: Our shops were forced to close their doors and get creative with alternative buying options, our industry saw a shortage and stall in production like never before, and the NHM crew packed up their desks and headed home to hunker down.

We're blessed to have made it through 2020 with you by our side. While 'normal' still seems very far from reach, we're all learning to adjust and find success in our current reality. No trade shows, no events, no checking in with our shops face-to-face. We're definitely feeling the disconnect, but try to remind ourselves that it's for the best.

In all the craziness, we've been keeping very busy. Apparently, people love smoke shop products when they're locked-down (who wouldn't). Our warehouse has been working non-stop to fulfill orders and keep inventory up, the development team has been having a blast debuting new products and brands throughout the year to keep everyone stoked and smiling, and our reps have been keeping your shelves stocked. Together we're keeping customers sane through a high-stress period we're all ready to leave in the past.

Thank you for sticking it out with us. Here's to 2021. May it be healthy, happy, and lock-down free.
