ABOUT NHM

It's been a good year. The (kind of) calm that followed the Covid shit show made us look inward and reflect on what really matters. We've spent this last year focusing on expanding our in-house brands to offer customers more of the consistency and integrity we aim to bring to all of our shops.

Terp Tube has grown into an extensive line of rigs, water pipes, and kits and accessories like the Beaker Kits, Reclaimers, and Ashcatchers that come boxed and branded, ready for your shelf. We have a lot of fun designing this line and all the packaging.

Yo Dabba Dabba is always growing and changing, and we officially dub 2021 the year of the Slurp. Taking cues from our customers, the Channel Slurp Set, Seamless Slurp Set, and Marble Sets were born in an effort to streamline the use of everyone's favorite nail. Sets make it easy for shops and customers alike, and that's what we're all about.

Thanks for growing alongside us for another year. Our shops are part of the family and without your support, we wouldn't be able to do what we love all day.
